## PRIVATE MEMBERS' NOTICES OF MOTION

*(Private Members' Notices of Motion, other than for amendments to Government Orders, will be published on the Notice Paper each Monday.)*

8. *Mr. Lewis*—Notice of Want of Confidence Motion under Standing Order 87 (i)—Resolution—That the Progressive Conservative Government of the Province of Ontario has:—1. failed to develop a contingency plan to offset the increased costs of energy, i.e., petroleum, home heating, oil and natural gas, imposed by the Federal Budget, and, 2. failed to exercise its jurisdictional authority by allowing an increase in the retail prices in the province of Ontario which will have an adverse effect on the people of Ontario, and, 3. failed to protect the consumers in the province of Ontario by not referring any proposed increases to the Ontario Energy Board, Therefore, this government no longer enjoys the confidence of this House.
  9. *Mr. Renwick*—Reasoned amendment to the Motion for Second Reading of Bill 77, An Act to amend The Power Corporation Act—That the Bill be not now read a second time but be referred back to the government for the purpose of establishing the social goals and policies of Ontario Hydro so that no change is made in the traditional financial and accounting policies of Hydro requiring the supply of energy at cost until such time as the government and Ontario Hydro have established such goals and policies; in particular, that Ontario Hydro not move from "cost" to "price", from a variable debt/equity ratio to a fixed one, from an implicit "rate of return" to an explicit one, in the absence of such goals and policies and until it is recognized by the government that the major concerns with which we are faced—unemployment, inflation, conservation, environmental protection—are involved in the debate about how Ontario Hydro ought to conduct its operations and that without such goals and policies Ontario Hydro and the Ontario Energy Board not be allowed a "free hand" in pricing.

# NOTICE PAPER

## GOVERNMENT NOTICE OF MOTION

5. *Mr. McKeough*—Resolution—This House confirms Ontario Regulation 383/75 amending Ontario Regulation 118/74 for the Niagara Escarpment Planning Area, and Ontario Regulation 399/75 amending Ontario Regulation 472/73 for the Parkway Belt West Planning Area.
6. *Mr. Clement*—Resolution—That an Humble Address be presented as follows:—*To the Honourable the Lieutenant Governor in Council*—We, Her Majesty's most dutiful and loyal subjects, the Legislative Assembly of the Province of Ontario, now assembled, request the appointment of Arthur Edward Martin Maloney, one of Her Majesty's Counsel learned in the Law, as Ombudsman for the Province of Ontario, as provided in Section 3 of "The Ombudsman Act, 1975", to hold office under the terms and conditions of the said Act.

---

## PRIVATE MEMBERS' NOTICES OF MOTION

*(Private Members' Notices of Motion, other than for amendments to Government Orders, will be published on the Notice Paper each Monday.)*

8. *Mr. Lewis*—Notice of Want of Confidence Motion under Standing Order 87 (i)—Resolution—That the Progressive Conservative Government of the Province of Ontario has:—1. failed to develop a contingency plan to offset the increased costs of energy, i.e., petroleum, home heating, oil and natural gas, imposed by the Federal Budget, and, 2. failed to exercise its jurisdictional authority by allowing an increase in the retail prices in the province of Ontario which will have an adverse effect on the people of Ontario, and, 3. failed to protect the consumers in the province of Ontario by not referring any proposed increases to the Ontario Energy Board, Therefore, this government no longer enjoys the confidence of this House.
9. *Mr. Renwick*—Reasoned amendment to the Motion for Second Reading of Bill 77, An Act to amend The Power Corporation Act—That the Bill be not now read a second time but be referred back to the government for the purpose of establishing the social goals and policies of Ontario Hydro so that no change is made in the traditional financial and accounting policies of Hydro requiring the supply of energy at cost until such time as the government and Ontario Hydro have established such goals and policies; in particular, that Ontario Hydro not move from "cost" to "price", from a variable debt/equity ratio to a fixed one, from an implicit "rate of return" to an explicit one, in the absence of such goals and policies and until it is recognized by the government that the major concerns with which we are faced—unemployment, inflation, conservation, environmental protection—are involved in the debate about how Ontario Hydro ought to conduct its

operations and that without such goals and policies Ontario Hydro and the Ontario Energy Board not be allowed a "free hand" in pricing.

29. *Mr. Cassidy*—Enquiry of the Ministry—When does the Ministry of Consumer and Commercial Relations intend to implement the recommendations made in 1972 by the Pension Commission in Ontario that the age at which an employee's benefits become vested should be reduced to 40 and that vesting should occur after five years service instead of after ten. What is the status of discussions with other provinces that were said to be intended to create uniformity among the provincial governments in changing the vesting provisions. If no agreement has been reached or there have been excessive delays, will

the Ontario government act unilaterally since more than one-half of the workers covered by the pension plans in Canada are citizens of this province.

## GOVERNMENT NOTICE OF MOTION

## PRIVATE MEMBERS' NOTICES OF MOTION

3. *Mr. Parrott/Mr. Breithaupt/Mr. Lawlor*—Resolution—That Mr. Speaker take the necessary steps to establish a privately funded, independent programme of parliamentary internships similar to that of the House of Commons of Canada.
6. *Mr. Burr*—Resolution—That in the opinion of this House, whenever the purchase of land by public funds is proposed to any public body, such as a municipal council, a utilities commission, a conservation authority or any provincial government agency, a history of the sales or transfers of title during the previous 7 years should accompany the proposal and be drawn to the attention of all those whose approval is required before the transaction is sanctioned.
7. *Mr. Cassidy*—Resolution—That in the opinion of this House, the Government should proclaim a non-smokers' Bill of Rights, designed to enable non-smokers to breathe relatively uncontaminated air when present at public meetings, theatres, restaurants and other public places.
8. *Mr. Lewis*—Notice of Want of Confidence Motion under Standing Order 87 (i)—Resolution—That the Progressive Conservative Government of the Province of Ontario has:—1. failed to develop a contingency plan to offset the increased costs of energy, i.e., petroleum, home heating, oil and natural gas, imposed by the Federal Budget, and, 2. failed to exercise its jurisdictional authority by allowing an increase in the retail prices in the province of Ontario which will have an adverse effect on the people of Ontario, and, 3. failed to protect the consumers in the province of Ontario by not referring any proposed increases to the Ontario Energy Board, Therefore, this government no longer enjoys the confidence of this House.
9. *Mr. Renwick*—Reasoned amendment to the Motion for Second Reading of Bill 77, An Act to amend The Power Corporation Act—That the Bill be not now read a second time but be referred back to the government for the purpose of establishing the social goals and policies of Ontario Hydro so that no change is made in the traditional financial and accounting policies of Hydro requiring the supply of energy at cost until such time as the government and Ontario Hydro have estab-

lished such goals and policies; in particular, that Ontario Hydro not move from "cost" to "price", from a variable debt/equity ratio to a fixed one, from an implicit "rate of return" to an explicit one, in the absence of such goals and policies and until it is recognized by the government that the major concerns with which we are faced—unemployment, inflation, conservation, environmental protection—are involved in the debate about how Ontario Hydro ought to conduct its operations and that without such goals and policies Ontario Hydro and the Ontario Energy Board not be allowed a "free hand" in pricing.

## QUESTIONS

9. *Mr. Foulds*—Enquiry of the Ministry—Would each Ministry list the names of every MPP (including Cabinet Ministers) who has made a personal presentation of a government cheque on behalf of the Ministry in 1974 and until March 15th, 1975. 17. *Mr. Cassidy*—Enquiry of the Ministry—Is it the policy of the Ministry to defer consideration of bilingual motor vehicle registration and application forms for five years. If so, why. If not, can the Minister of Transportation and Communications explain why he wrote the following in a letter to the City of Ottawa: "All forms were designed in their present form for the purpose of this five year program . . . 29. *Mr. Cassidy*—Enquiry of the Ministry—When does the Ministry of Consumer and Commercial Relations intend to implement the recommendations made in 1972 by the Pension Commission in Ontario that the age at which an employee's benefits become vested should be reduced to 40 and that vesting should occur after five years service instead of after ten. What is the status of discussions with other provinces that were said to be intended to create uniformity among the provincial governments in changing the vesting provisions. If no agreement has been reached or there have been excessive delays, will the Ontario government act unilaterally since more than one-half of the workers covered by the pension plans in Canada are citizens of this province.

# NOTICE PAPER

## PRIVATE MEMBERS' NOTICES OF MOTION

*(Private Members' Notices of Motion, other than for amendments to Government Orders, will be published on the Notice Paper each Monday.)*

8. *Mr. Lewis*—Notice of Want of Confidence Motion under Standing Order 87 (i)—Resolution—That the Progressive Conservative Government of the Province of Ontario has:—1. failed to develop a contingency plan to offset the increased costs of energy, i.e., petroleum, home heating, oil and natural gas, imposed by the Federal Budget, and, 2. failed to exercise its jurisdictional authority by allowing an increase in the retail prices in the province of Ontario which will have an adverse effect on the people of Ontario, and, 3. failed to protect the consumers in the province of Ontario by not referring any proposed increases to the Ontario Energy Board, Therefore, this government no longer enjoys the confidence of this House.
9. *Mr. Renwick*—Reasoned amendment to the Motion for Second Reading of Bill 77, An Act to amend The Power Corporation Act—That the Bill be not now read a second time but be referred back to the government for the purpose of establishing the social goals and policies of Ontario Hydro so that no change is made in the traditional financial and accounting policies of Hydro requiring the supply of energy at cost until such time as the government and Ontario Hydro have established such goals and policies; in particular, that Ontario Hydro not move from “cost” to “price”, from a variable debt/equity ratio to a fixed one, from an implicit “rate of return” to an explicit one, in the absence of such goals and policies and until it is recognized by the government that the major concerns with which we are faced—unemployment, inflation, conservation, environmental protection—are involved in the debate about how Ontario Hydro ought to conduct its operations and that without such goals and policies Ontario Hydro and the Ontario Energy Board not be allowed a “free hand” in pricing.
10. *Mr. Cassidy*—Reasoned amendment to the Motion for Second Reading of Bill Pr33, An Act respecting the City of Toronto—That the Bill be not now read a second time but be referred back to the Private Bills Committee in order that the section of the Bill relating to rent control which was contained in the original application of the City of Toronto can be restored.

# NOTICE PAPER

## PRIVATE MEMBERS' NOTICES OF MOTION

3. *Mr. Parrott/Mr. Breithaupt/Mr. Lawlor*—Resolution—That Mr. Speaker take the necessary steps to establish a privately funded, independent programme of parliamentary internships similar to that of the House of Commons of Canada.
6. *Mr. Burr*—Resolution—That in the opinion of this House, whenever the purchase of land by public funds is proposed to any public body, such as a municipal council, a utilities commission, a conservation authority or any provincial government agency, a history of the sales or transfers of title during the previous 7 years should accompany the proposal and be drawn to the attention of all those whose approval is required before the transaction is sanctioned.
7. *Mr. Cassidy*—Resolution—That in the opinion of this House, the Government should proclaim a non-smokers' Bill of Rights, designed to enable non-smokers to breathe relatively uncontaminated air when present at public meetings, theatres, restaurants and other public places.
8. *Mr. Lewis*—Notice of Want of Confidence Motion under Standing Order 87 (i)—Resolution—That the Progressive Conservative Government of the Province of Ontario has:—1. failed to develop a contingency plan to offset the increased costs of energy, i.e., petroleum, home heating, oil and natural gas, imposed by the Federal Budget, and, 2. failed to exercise its jurisdictional authority by allowing an increase in the retail prices in the province of Ontario which will have an adverse effect on the people of Ontario, and, 3. failed to protect the consumers in the province of Ontario by not referring any proposed increases to the Ontario Energy Board, Therefore, this government no longer enjoys the confidence of this House.
9. *Mr. Renwick*—Reasoned amendment to the Motion for Second Reading of Bill 77, An Act to amend The Power Corporation Act—That the Bill be not now read a second time but be referred back to the government for the purpose of establishing the social goals and policies of Ontario Hydro so that no change is made in the traditional financial and accounting policies of Hydro requiring the supply of energy at cost until such time as the government and Ontario Hydro have established such goals and policies; in particular, that Ontario Hydro not move from "cost" to "price", from a variable debt/equity ratio to a fixed one, from an implicit "rate of return" to an explicit one, in the absence of such goals and policies and until it is recognized by the government that the major concerns with which we are faced—unemployment, inflation, conservation, environmental protection—are involved in the debate about how Ontario Hydro ought to conduct its operations and that without such goals and policies Ontario Hydro and the Ontario Energy Board not be allowed a "free hand" in pricing.

# NOTICE PAPER

## PRIVATE MEMBERS' NOTICES OF MOTION

*(Private Members' Notices of Motion, other than for amendments to Government Orders, will be published on the Notice Paper each Monday.)*

8. *Mr. Lewis*—Notice of Want of Confidence Motion under Standing Order 87 (i)—Resolution—That the Progressive Conservative Government of the Province of Ontario has:—1. failed to develop a contingency plan to offset the increased costs of energy, i.e., petroleum, home heating, oil and natural gas, imposed by the Federal Budget, and, 2. failed to exercise its jurisdictional authority by allowing an increase in the retail prices in the province of Ontario which will have an adverse effect on the people of Ontario, and, 3. failed to protect the consumers in the province of Ontario by not referring any proposed increases to the Ontario Energy Board, Therefore, this government no longer enjoys the confidence of this House.
9. *Mr. Renwick*—Reasoned amendment to the Motion for Second Reading of Bill 77, An Act to amend The Power Corporation Act—That the Bill be not now read a second time but be referred back to the government for the purpose of establishing the social goals and policies of Ontario Hydro so that no change is made in the traditional financial and accounting policies of Hydro requiring the supply of energy at cost until such time as the government and Ontario Hydro have established such goals and policies; in particular, that Ontario Hydro not move from "cost" to "price", from a variable debt/equity ratio to a fixed one, from an implicit "rate of return" to an explicit one, in the absence of such goals and policies and until it is recognized by the government that the major concerns with which we are faced—unemployment, inflation, conservation, environmental protection—are involved in the debate about how Ontario Hydro ought to conduct its operations and that without such goals and policies Ontario Hydro and the Ontario Energy Board not be allowed a "free hand" in pricing.
